FOXTROT

<p>1. <b>Project description:</b> The project aims to develop a new software application for managing customer data and sales performance.</p>	<p>2. <b>Objectives:</b> The primary objective is to create a user-friendly interface for data entry and reporting. Secondary objectives include improving data accuracy and reducing manual errors.</p>	<p>3. <b>Scope:</b> The project will cover the development of a web-based application accessible to all sales team members. It will include modules for data entry, reporting, and user management.</p>	<p>4. <b>Resources:</b> The project team consists of a project manager, two software developers, and a data analyst. Necessary resources include access to a development environment and a database.</p>	<p>5. <b>Risks:</b> Potential risks include delays in development due to resource constraints and changes in requirements. Mitigation strategies include regular communication and flexible planning.</p>	<p>6. <b>Timeline:</b> The project is scheduled to start in January and complete by June. Key milestones include the completion of the initial design phase by February and the launch of the application by May.</p>	<p>7. <b>Budget:</b> The estimated budget for the project is \$50,000, covering salaries, software licenses, and other operational costs.</p>	<p>8. <b>Stakeholders:</b> The primary stakeholders are the sales team and the management. The sales team will be the end-users of the application, while management will oversee the project's progress.</p>	<p>9. <b>Conclusion:</b> The project is expected to significantly enhance the sales team's efficiency and data management capabilities. Regular updates and feedback loops will ensure the application meets the needs of the users.</p>
